

# ACLIC & GWAPA JOINT MEETING!

Location: That Fish Place, 237 Centerville Road, Lancaster PA

**Saturday October 15<sup>th</sup> 2011**

**Allen  
Wood**

***SPECIAL START TIME: 12:00 NOON***

## **"Adapting My Fishroom to Keep Livebearers"**

To begin our joint meeting, Allen Wood from Pueblo, Colorado, will give this presentation on how he adapted his fishroom and fishkeeping procedures to allow him to keep more species with less time spent doing "drudge work" and more time observing and working with the fish. Allen has bred over 250 species of fish including over 100 species of livebearers. Allen is currently the Chairman of the American Livebearer Association.

## ***"Hardscaping Your Aquascape"***

Following Mr. Wood's presentation, we will take a break, and then the folks from the Greater Washington Aquatic Plant Association, led by Kris Weinhold, will give a talk on setting up hardscapes for the different aquascaping styles: "Hardscaping your Aquascape". This will get into the three major aquascaping styles of Dutch, Nature and Iwagumi and how to choose materials that are appropriate for each, and then use them to set up your hardscape.

## ***"Aquascape Workshop / Competition"***

After this talk we will break into pre-registered small groups and begin our hands-on workshop/competition! Each ACLC group will be joined by a GWAPA member for help and guidance in setting up a hardscape of their choosing in a 10-gallon tank. The teams will be judged by a third-party and the winning tank raffled after judging is completed!

## **THE PUBLIC IS WELCOME**
